

# Win A Makeover And Have Your Hair

Before

Each month As You Like It Hair Gallery transforms one lucky person. This month Chantelle Rakich from Kanimbla was the lucky recipient.

## hair by Marcia Ebdell-Blanch

Chantelle is a young, beautiful girl so I wanted to give her the lift she deserved. I began by shortening the length and having fun with the style by injecting choppy, funky layering, which also added volume and texture to the style.

## colour by Marcia Ebdell-Blanch

Chantelle was already a blonde, but since it was looking a little tired and there was a re-growth issue, I gave her a full head frosting to lift and brighten her look before applying toner. This gave it a clean and crisp platinum finish.

## make-up by Sara O'Neill

Chantelle has beautiful eyes, so for her make-up I made them the main focus by using bright blue metallic colour with shimmer on the eyes. I then added a touch of colour to Chantelle's cheeks with a Rose based bronzer to achieve a natural blush. To complete her look I finished with a soft gloss on the lips.

## products used

- Alleiv8 shampoo and conditioner
- Rejuven8 The Ends leave in moisturiser
- Alleiv8 Shine mist
- Extinguish thermal spray

## hair tip

To keep a clean blonde tone in the tropics some homecare is essential, so try a user-friendly conditioning toner to brighten once a week.

## make-up tip

When working with metallics and shimmers create a matt base and work from there so you do not overpower the look.
